- Problem-Solving
- GitHub
- Computer Literacy

Languages

Uzbek (Native)

English (Beginner)

Russian (Pre-Intermediate)

My Hobby

In my spare time, I enjoy learning and practicing new skills by working on myself and reading.

About me

Hi, I'm Shakhjakhan Razokov, a Flutter developer. My passion for software is dreaming up ideas and realizing them with elegant interfaces. I pay close attention to the experience, architecture, and code quality of the things I build.

I've studied Flutter and Dart in depth and done a few projects. I want to work with the team to improve my experience
